

PROBABLE CAUSE STATEMENT

I, Det. D. Sissom 262, with the St. Charles Police Department, a law enforcement agency, state that the facts contained herein are true to my best knowledge and belief and that any false statements made are punishable by law.

1. On 01/13/2019 (date of crime) at 209 S. Kingshighway, [REDACTED] (location of crime)
in St. Charles County, MO, Blace Eckols (name of suspect) did:

commit the crime of sodomy and two acts of attempted sodomy.

Eckols committed the act of sodomy by admittedly performing oral sex on the male victim who was incapacitated at the time due to alcohol. Eckols did so without the permission or knowledge of the victim. Eckols advised that he thought that the victim was "out cold" and he pulled the victim's pants down. Eckols placed his mouth on the victim's erect penis for a couple of minutes. The victim advised that he was passed out and awoke to his erect penis being in Eckols' mouth, but could not move or speak due to his level of intoxication. The victim passed out again.

Eckols committed the act of attempted sodomy by admittedly attempting to place his penis in the mouth of the incapacitated male victim without his permission or knowledge. Eckols advised that he knelt on the side of the bed that the victim was lying on. Eckols maneuvered the head of the incapacitated victim into a position where he tried to place his erect penis in the victim's mouth, but was unsuccessful. The victim advised that after passing out while Eckols was performing oral sex on him, he awoke to Eckols straddling him. Eckols' penis was on the victim's face and Eckols was attempting to place his penis in the victim's mouth. The victim was able to move his arms over his face to block Eckols from placing his penis in the victim's mouth.

After Eckols' failed attempt to place his penis in the victim's mouth, he committed a second act of attempted sodomy. The victim remembers Eckols rolling him over and pulling his pants all of the way down. Eckols then placed his erect penis against the victim's anus. The victim remembered feeling Eckols' erect penis against his anus, but could not confirm whether or not there was penetration. The victim passed out again.

The victim advised that he has never given Eckols permission to perform any sexual acts on him and that Eckols would have no reason to think that his actions were wanted or acceptable.

2. DRUG CASES ONLY:

The lab report confirmed the substance to be _____ and weighed _____ (if applicable).

3. I have reasonable grounds to believe that the defendant will not appear upon the summons or is a danger to the crime victim, the community or any other person because:

of the seriousness of the crimes committed and the fact that Eckols permanent residential address is outside of St. Charles County.

Date: 01/15/2019
